

“Routine” to make you more skin disciplined

Kaya Launches “Skincare Routine” packages for some extra care this season

Mumbai, 13th April 2014: You don’t need an occasion to celebrate your skin. And to celebrate your skin every-day, you need a skincare routine which ensures you give the best to your skin every-day.

Routine is performed as part of a regular procedure rather than for a special reason. Hence, Kaya brings to you its Routine Packs that are a perfect solution for everyone on the-go. The hunt for individual products ends, with a single travel friendly pack that brings to you everything you would need daily, to ensure you keep that radiance and glow alive.

“We’re building a habit of regular skincare routine among our consumers to help them achieve their beauty aspirations. Our latest routines are a hand-picked selection of Kaya’s advanced range of products which have been developed by Kaya’s dermatologists. These packs are travel-friendly, economical and help build an expert skincare regime at home.”

“There’s also a growing consumer trend of buying multiple products for skincare needs. Our Routine Packs are aimed at making it easier for consumers to pick up products specific to their skin concern, without any hassle”, says Arvind R.P., V.P. & Head Marketing & Product Retail, Kaya Skin Clinic.
