

Kaya launches the revolutionary Tri-Active Acne Treatment with Black Peel

A combination that effectively treats acne, skin aging and pigmentation problems in one treatment

Mumbai, July 24, 2015: Most people associate acne with teenage, but research indicates that passing of adolescence does not ensure the passing of acne. To address the issue of recurrent acne, Kaya India introduces a revolutionary service - **Tri-Active Acne Treatment with Black Peel**. The treatment effectively addresses acne through a natural organic peel – Black Peel, which has anti-bacterial and anti-inflammatory properties.

Kaya has consistently been at the forefront of providing its customers with exceptional value. At Kaya, the dermatologists have designed this combination peel with additional benefits of Jasmonic acid, Salicylic acid and bio sulfur which help in exfoliation and reduces oiliness. The Tri-Active Acne Treatment with Black Peel is also high on anti-bacterial properties which in turn prevent inflammation of the skin.

A first of its kind service, Black Peel is an organic peel derived from Acetic Acid (vinegar) which is known to have anti-bacterial properties. Black Acetic Acid is made from fermentation of black rice, it contains large amounts of organic substances, minerals and essential amino acids. Black Acetic Acid is also full of anti-oxidants. Additionally, the potassium iodide present in the Black Peel aids healing which helps in fast wound recovery.

Dr. Sangeeta Velaskar, Vice President and Head, Medical Services and R&D, Kaya India, said, “Black Peel has been recognized for its efficacy in terms of overall skin renewal. We are excited to launch the Tri-Active Acne Treatment with Black Peel as it combines the goodness of black peel along with a targeted approach to treat acne. Ingredients such as black acetic acid, jasmonic acid and bio sulphur are all extremely effective in addressing issues such as oiliness, dead skin cells and inflammation. Acne can now be addressed in just one treatment.”

A perfect combination of nourishing ingredients, the Tri-Active Acne Treatment with Black Peel is a 30 minute service.
