

Kaya introduces ‘Wedding Rituals’ – a comprehensive bouquet of bridal services

Every bride wants to look her best on her wedding day. To achieve the desired look, apart from makeup, it is important to maintain a skin regime that ensures long-term benefits. The right regime also helps one look their best not just on their wedding day but for the entire new phase that begins after that day.

To highlight the importance of natural radiance, Kaya launches ‘Wedding Rituals’ – deep-rooted skincare services that help achieve beauty from within. These services have been designed by expert dermatologists to make a lasting impact on your skin. Keeping in mind many factors such as blemishes, pigmentation or early ageing, Kaya’s Wedding Rituals for brides-to-be aims to treat such concerns in a timely manner, hence making a deeper impact. The most important step is sustaining these efforts through customized home care products and maintenance services.

The services under Kaya’s Wedding Rituals include:

Kaya Pigmentation services

Insta Clarity Laser - A breakthrough technology which helps treat stubborn hyper-pigmentation, dark spots, age spots and uneven skin tone with Q-switched laser technology. This is highly safe for Indian skin and gives visibly clearer skin in just one session.

Pigmentation Peels - A unique combination of highly efficacious pigmentation peel systems with skin lightening and de-pigmentation actives for visibly luminous and even skin tone.

Kaya Expert Beauty Facials

Kaya’s comprehensive range of beauty facials are designed by dermatologists where each facial is uniquely crafted to deliver results for every unique skin need.

Kaya Rejuvenation Services

Natural Skin Rejuvenation with PRP - One of the safest non-invasive services that can rejuvenate appearance by maximizing collagen build to give fresh looking skin. It uses the body’s own plasma that is rich in platelets to naturally revive your skin.

Kaya Dermal Fillers - Fillers help regain skin’s volume and elasticity and tone the facial muscles. With their gel-like structure containing hyaluronic acid, they seep into the hollow areas to restore youthful radiance.

Kaya Hair Free Gentle Touch

A US FDA approved, highly safe technology that reduces hair from the root and prevents further growth giving you smooth, hair-free skin without the hassle of monthly waxing.

Also, Kaya Skin Clinic has perfectly planned step-by-step beauty packages for the groom, the bride's family and friends. While a bride may be busy picking wedding outfits, sending invitations and overseeing other arrangements, she must not forget to take time off the wedding mayhem to indulge in some bridal pampering!
