

**AntOx Vit - C** is a dermatologically approved product that is non-oily easily absorbing anti-oxidants gel based on Vitamin C. Vitamin C is known to counteract free radicals which are responsible for premature skin ageing and protects the skin against environmental assault. It also contains active ingredients that delay the appearance of dark spots, age spots, fine lines and wrinkles. It also helps in treating acne marks and UV damaged skin, thereby giving a more even skin tone.

Benefits at a glance -

It delays and reduces the appearance of dark spots, age spots, acne marks, fine lines and wrinkles

Protects the skin against environmental assault and treats acne marks and UV damaged skin

Gives you softer, smoother skin

This product which is in gel form has a non-oily formula making it very apt for those with oily and sensitive skin. A thin layer of this serum can be applied on to the face, neck and upper chest area. Ideally, apply it before your makeup or sunscreen.
